63% of pupils answered this item correctly

## What is a Mammal?

---

You may know that you are related to monkeys. But did you know that you are also related to bears, tigers, rhinoceroses, whales, kangaroos, and many more creatures? We are all mammals, linked together by several features. Mammals all have hair or fur at some point in their lives, most give birth to live young (instead of laying eggs), and all feed their young on milk.

### Swimming Mammals

A dolphin may look like a fish, but it is really a special kind of mammal. The biggest animal in the world, the blue whale, is another mammal that spends the whole of its life in water.

### Largest on Land

Elephants are the largest mammals that live on land. There are three types of elephant, African, African Forest and Asian (sometimes called the Indian elephant).

1. All mammals have
  - (a) feathers.
  - (b) scales or fins.
  - (c) hair or fur.
  - (d) wings.
  
2. The biggest animal in the world is
  - (a) the dolphin.
  - (b) the blue whale.
  - (c) the great white shark.
  - (d) the elephant.
  
3. Which animal is not a mammal?
  - (a) Tiger.
  - (b) Dolphin.
  - (c) Kangaroo.
  - (d) Frog.

4. The largest land mammal is
- (a) an elephant.
  - (b) a rhinoceros.
  - (c) a bear.
  - (d) a whale.
5. All mammals feed their babies
- (a) grass.
  - (b) milk.
  - (c) eggs.
  - (d) fish.
6. What is another name for the Asian elephant?
- (a) African Forest.
  - (b) Indian.
  - (c) African.
  - (d) Mammal.
